

خدمات الذكاء الاصطناعي التفاعلية:  
الفرص، المخاطر والاتجاهات

CONVERSATIONAL AI ENABLED SERVICES :  
OPPORTUNITIES, RISKS AND DIRECTIONS

Conference

Guest speaker

PROF BOUALEM BENATALLAH  
العالم الجزائري بوعلام بن عطا الله

Boualem Benatallah is a full professor of computing at Dublin City University (DCU, Ireland) since Jan 2022. He is a fellow of the IEEE. His main research interests are developing fundamental concepts and techniques in Web services middleware, business process automation, quality control in crowdsourcing and AI-enabled services, automated and crowdsourced training data curation, conversational cognitive services, and context-aware and compositional task-oriented conversational services. He has published more than 320 refereed papers including more than 100 journal papers.

Benatallah has been general and PG chair of a number of international conferences. He has been a guest editor of several special issues for reputable international journals. He is a member of the steering committee of ICSSOC (Int. Conference on Service Oriented Computing) conferences. He is a member of the editorial board of numerous international journals including ACM Transactions on Web, IEEE Transactions on services computing, and ACM Computing surveys.

He supervised over 38 research (including 35 PhD and 5 Masters by Research) students to completion as principal or joint supervisor. Benatallah has had over 21 years as a senior lecturer, associate professor, full professor and then Scientia professor at UNSW Sydney (Australia) before joining DCU.
