The laboratory LSMSA is organizing a series of conferences on

Statistics and Artificial Intelligence (SAI'26), from 2nd to 4th of February, 2026.

Invited Speakers :

1. **Prof. Nicolas PRIVAULT :** Division of Mathematical Sciences, School of Physical and Mathematical Sciences. Nanyang Technological University , Singapore.
2. **Prof. Salim BOUZEBDA :** University of Technology of Compiègne. France.

The Program

Day/ Schedule	10 to 11 am	11 to 12 am
Monday, February 2nd	A Distribution-Free Nonparametric Test of Independence for Continuous Random Vectors Based on the L_1-Norm. **Prof. S.BOUZEBDA**	A Distribution-Free Nonparametric Test of Independence for Continuous Random Vectors Based on the L_1-Norm. **Prof. S.BOUZEBDA**
Tuesday, February 3rd	Diffusion models **Pr. N.Privault**	Two Step Conditional Generative Adversial Network for Surgical Scene Segmentation in Robotic Gastrectomy. **Mme Dr H.Menad** **+** AI : past, present and future **Dr. M.E.RAHMANI**
Wednesday , February 4th	La statistique des Equations Différentielles Stochastiques : Résultats et problématique. **Prof. F.MADANI**	Nonparametric Estimation Using Special Polynomials. **Dr. K.DJERFI**

The laboratory director :
Prof. A.KANDOUCI
