UNIVERSITY OF SAIDA

جامعة سعيدة د. مولاي الطاهر

في إطار استراتيجية جامعة سعيدة للانفتاح والتدويل، تأتي هذه النشرة الشهرية لتقديم موجز لأبرز المستجدات والأنشطة العلمية والأكاديمية المهمة على مستوى الجامعة، بما يشمل المشاريع الدولية، وبرامج التعاون والشراكات، إلى جانب المبادرات الأكاديمية والعلمية والتنظيمية. وذلك بهدف دعم التواصل الداخلي والخارجي، وتعزيز الاطلاع على ديناميكية الجامعة ومجالات انفتاحها وتعاونها على المستويين الوطني والدولي

As part of the University of Saïda's internationalization strategy, this monthly newsletter is an institutional publication providing a concise overview of the University of Saïda's most relevant updates and key activities, including international projects, cooperation programs and partnerships, as well as major academic, scientific, and organizational initiatives. It aims to strengthen internal and external communication and to support visibility of the university's ongoing development and engagement at both national and international levels

Marie Skłodowska-Curie Actions

برامج ماري سكودوفسكا-كوري لدعم البحث العلمي
والتنقل الأكاديمي

POSTDOCTORAL FELLOWSHIPS 2026:

(Coordinator: European Commission, opens on 9 April 2026)

The Marie Skłodowska-Curie Actions Postdoctoral Fellowships 2026 call offers funding opportunities for PhD holders to advance their careers through international mobility, research, and skills development. Fellowships include European (1–2 years) and Global (2–3 years) schemes, covering salary, mobility, and research costs. Applications must be submitted jointly with a host institution in an EU Member State or associated country.

<https://marie-sklodowska-curie-actions.ec.europa.eu/actions/postdoctoral-fellowships>

MSCA DOCTORAL NETWORKS 2026:

(Coordinator: European Commission, opens on 28 May 2026)

The Marie Skłodowska-Curie Actions Doctoral Networks 2026 call supports international consortia to implement high-quality doctoral programmes across academic and non-academic sectors. The programme aims to train highly skilled PhD candidates, enhance innovation capacities, and improve long-term employability.

Doctoral Networks bring together universities, research institutions, and organisations worldwide, offering funding for doctoral training, mobility, and research activities. They include standard Doctoral Networks, as well as Industrial Doctorates and Joint Doctorates.

<https://marie-sklodowska-curie-actions.ec.europa.eu/actions/doctoral-networks>

MSCA STAFF EXCHANGE 2026

(Coordinator: European Commission, Deadline: 16 April 2026)

Funds international and inter-sectoral staff exchanges to strengthen collaboration between academic and non-academic organisations. Staff at any career stage—including researchers, technical, administrative, and managerial personnel—can benefit from secondments of 1–12 months to acquire new skills, share knowledge, and foster long-term partnerships. The action supports mobility, training, networking, and related project costs for consortia of at least three organisations from different countries

The 4th Africa-UniNet General Assembly at the University of Saida, Algeria

Saïda – Dr. Moulay Tahar, Algeria

انعقاد الجمعية العامة الرابعة لشبكة إفريقيا-يونيت بجامعة سعيدة
الدكتور مولاي الطاهر - الجزائر

28. September 2026 –
30. September 2026

University of Saida
Dr. Moulay Tahar,
Algeria

Programme

The programme was developed in cooperation with the University of Saida and the Africa-UniNet Board. In collaboration with members of the General Assembly and interested stakeholders, the programme is continuously being expanded and refined. It is based on three pillars: Network Administration, Scientific Exchange and Networking and Cooperation Opportunities.

Network Administration:

According to the Africa-UniNet Statutes, General Assembly Meetings must be held regularly, either in Austria or in an African country. In 2026, the new Africa-UniNet Board must be elected, and a new President and Vice-President must be appointed. There are also ideas to adapt some processes of the Africa-UniNet Statutes based on lessons learned.

Scientific Exchange

Africa-UniNet aims to foster scientific exchange through its platform, with around 100 projects already implemented. The General Assembly Meeting serves to present results, highlight achievements, and deepen discussions on "Open Sources and Open Innovation in Higher Education and Research." It also includes panel discussions, shared experiences from partners, and a poster exhibition showcasing project outcomes.

Networking and Cooperation Opportunities:

There are currently few scientific collaborations between Africa-UniNet's member institutions and Algerian universities and research institutions. The event will therefore also be used to gain a better understanding of the Algerian higher education sector. Furthermore, funding opportunities will be discussed, and the potential for cooperation within national and EU funding frameworks will be explored. Participating institutions will get the opportunity to introduce and present themselves, with the aim of exploring potential future collaborations. It is also envisaged to invite a representative of the Austrian Embassy in Algiers to provide an overview of the political and economic relations.
